**Proceedings:**

The Proceedings include full papers (not the abstracts). The book follows international editorial conventions. The books of proceedings are numbered according to the volume number. The literature citation rules are identical with those valid for the journal "Chemické Listy" (ISSN 0009-2770, indexed in Web of Science). The length of the articles amounts to 3-5 pages (size A4, single-spaced). The titles, abstracts and key words are written in English (Czech translation is available in some cases). The texts of the contributions are written in English, Czech, or Slovak languages. The Books of Proceedings are published in printed form (and are available on request). Further, they have been available on the www pages since the year 2009 (free access). This year, the Proceedings are available at the following www address:

[https://www.bestservis.eu/images/file/sb\\_mem\\_19/Sbornik\\_metody19.pdf](https://www.bestservis.eu/images/file/sb_mem_19/Sbornik_metody19.pdf). Each contribution was accepted for publication after reviewing by members of the scientific committee (the revisions

included the formal aspects, the overall quality of the research presented, the completeness of the cited references, etc.).
