

CURRICULUM VITAE:

GuoBao XU received his BEng, MSc, and PhD from Jilin University, Xiamen University, and State Key Laboratory of Electroanalytical Chemistry (SKLEAC), Changchun Institute of Applied Chemistry (CIAC), Chinese Academy of Sciences (CAS), respectively. He did postdoctoral studies at The University of Hong Kong, The Hong Kong Polytechnic University, NTT Microsystem Integration Laboratories (Japan). He is a full professor at the SKLEAC since 2004 and also a professor at the University of Science and Technology of China (USTC) since 2017. He is a Deputy Director of SKLEAC since 2009, Director of Electrochemical Instrument Engineering and Technology Research Center of Jilin Province since 2019, Visiting Professor of Université de Bordeaux (2019) and Teaching Committee Member of International College of USTC.

He is Vice-Chair of Division 6 of ISE (2015-), Chair of Analytical Electrochemistry Division of Chinese Society of Electrochemistry (2018-), FRSC (2011-), CChem, and CSci (2014-).

He is the Chairperson of the Organization Committee of 15th-19th International Symposium on Electroanalytical Chemistry (ISEAC, about 700 attendees each time) & 3rd International Meeting on Electrogenenerated Chemiluminescence sponsored by ISE. Many ISE members, such as ISE presidents, vice-presidents, and Division officers, have kindly presented their excellent lectures in these conferences. He has also been a Symposium Lead Organizer, Symposium Co-Organizer, Session Chair, Session Co-Chair, or Scientific Committee Member of 70th-73rd Annual Meetings of ISE, 237th (Canada), 241st (Canada) and 244th (Sweden) ECS Meetings, 18th International Meeting on Chemical Sensors (IMCS), 17th International Conference on Electroanalysis (Greece), 19th (Japan) and 20th (France) International Symposium on Bioluminescence and Chemiluminescence (ISBC), and 2nd International Meeting on Electrogenenerated Chemiluminescence (France) among others. He has presented Keynotes in 68th Annual Meeting of ISE (USA), 19th and 20th ISBC, Shikata Discussion (Japan), 15th and 20th National Electrochemistry Meeting.

He is Editor of *J. Electroanal. Chem.* and a Managing Editor or Guest Editor of 14 special issues of *Electrochim. Acta* (VSI: ISE 2020 and VSI: ISE 2022), *Curr. Opin. Electrochem.* (Organic and Molecular Electrochemistry Section 2022), *ChemElectroChem*, *Biosens. Bioelectron.*, *J. Electroanal. Chem.*, *Bioelectrochemistry* and so on. He has been invited to contribute articles to Special Issues in honor of Professors Chritian Amatore, Chuansin Cha, Richard Compton, Shaojun Dong, Anny Jutand, James Rusling, Jean-Michel Sav éant, Zbigniew Stojek, Zhaowu Tian, Jens Ulstrup, Erkang Wang, and Petr Zuman.

His international group mainly studies electrochemistry, ranging from molecular electrochemistry, electrochemiluminescence, electrochemical applications of nanomaterials, electrodeposition, batteries, to electrochemical devices. He has about 300 articles in peer-reviewed international journals (e.g. *Chem. Soc. Rev.*, *Acc. Chem. Res.*) as a first or corresponding author, including more than 100 articles by international collaboration. He has won Young Scholar Award of the Chinese Chemical Society, Excellent Youth Award of the Chinese Society of Electrochemistry, Young Researcher Gold Award in Materials Science, and the Second-Class Award of National Natural Science of China.

Brief Statement

Dear Colleagues,

It is my great honour to be nominated as a candidate for the Chair-Elect of Division 6.

I have been the Vice Chair of Division 6 on kind invitation by the chairs of Division 6 since 2015. Since then, I collaborate successfully with other division officers and members in all related ISE activities and enjoy the stay in this friendly division 6 family. Making full use of my opportunities as Chairperson of the Organization Committee of International Symposiums on Electroanalytical Chemistry (ISEAC), Symposium Organizer of international conferences, Editor, and a Managing/Guest Editor of 14 Special Issues (e.g. VSI: ISE 2020 and VSI: ISE 2022 on behalf of Division 6), I have already invited/recommended a great many ISE members including ISE (vice)presidents, division officers, and members as plenary speakers, keynote speakers, invited speakers, scientific committee members, symposium organizers, guest editors, contributors of special issues, and so on. I have a rich experience in the organization of international conferences (e.g. ISE meetings, ECS meetings, ISEACs), special issues and international cooperative research, and collaborate amicably with lots of international electrochemists. Also, my International Research Group currently has about 10 international visiting professors and PhD students. All these experiences enable me to respect and get along well with people of different cultural backgrounds. If I am honored to be elected as Chair of Division 6 with your kind trust, I will devote myself to the success of both our division members and molecular electrochemistry, lend an ear to your constructive advices, create more opportunities for international collaboration and exchange, and attract more people to join and/or contribute to Division 6.

Best wishes,
Guobao XU
